## DETAILED ACTION

### *Inventorship*

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

### *Drawings*

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: ***the reference numeral 30 is missing from the drawings***. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

3. The disclosure is objected to because of the following informalities:

In paragraph 0023, "intake pipes 20 to 22" must be changed to --intake pipes 5 to 8--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are replete with double recitations, and of terms that lack antecedent basis. The following are several examples:

Claim 1, line 3, "the effective pipe lengths..." lacks of antecedent basis

Claim 1, line 8, "a first threshold value" is double recitation.

Claims 9, and 11, "the effective pipe lengths..." lacks of antecedent basis

Claims 9, and 20, line 9; "a first threshold value" is double recitation.

Claim 11, line 10, "a first threshold value" is double recitation.

The claims not specifically mentioned are indefinite since they depended from one of the above claims.

***Allowable Subject Matter***

6. Claims 1-27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3747

**Conclusion**

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pietrowski et al (US 6,431,136), Happenhofer et al (US 6,279,528), Fischer (US 6,016,780), and Espe et al (US 5,832,894).
